

Caine Benoy

Product engineer & generalist — AI, blockchain, hardware, web, and community operations.

PROJECTS@CRAV.WORLD · KERALA, INDIA · OPEN TO WORK, GRADUATING 2026

EXPERIENCE

FEB 2026 – PRESENT

CRAV

Junior Product Engineer JUL 2026 – PRESENT — Product development, product management, and cross-functional engineering work.

Super20 FEB 2026 – JUL 2026 — 6-month engagement (Kochi, hybrid).

MAR 2026 – APR 2026

AI Training Specialist · Outlier

Dual-track work in generalist AI evaluation and software development assessment: crafting challenging prompts, ranking AI-generated code, and applying full-stack knowledge to improve model coding performance.

JUL 2025 – PRESENT

Campus Lead · TinkerHub SCAS

Organizing hackathons, workshops, and student dev culture across a full academic year.

JAN – FEB 2025

Game Development Intern · Immersive Skills Academy

Built 2D platformer mechanics in Unity: player movement, enemy AI, checkpoints, and WebGL publishing.

JAN – FEB 2025

Web Development Intern · Varlyq Technologies

Built responsive web apps with Django and Bootstrap, integrated PostgreSQL and authentication.

APR – MAY 2024

AI/ML Intern · St. Thomas' College (Autonomous)

Trained ML models with scikit-learn, built basic NLP pipelines for sentiment analysis.

SELECTED BUILDS

The Love Protocol LIVE – 1,700+ USERS

Single-player dating app, shipped in 48 hours. 6,013 page views, 1,758 visitors, and over 400 singles matched inside the launch window.

EY Buzzer System SHIPPED — ONE-OFF BUILD

Stage hardware with millisecond stakes, built in four days. Ran the finale without a hitch — and earned EY-branded recognition from the event's title sponsor for the build.

ARDUINO NANO · PYTHON · CUSTOM HARDWARE

Veritas Vault SHIPPED — MVP

A save button for the parts of the web that disappear.

NEXT.JS · TYPESCRIPT · FIREBASE · IPFS · POLYGON

EDUCATION

2023 — 2026

Sahrdaya College of Advanced Studies, Kodakara

Undergraduate — Class of 2026 · Campus Lead, TinkerHub SCAS · Quiz Club Coordinator

SKILLS

PRODUCT & WEB

Next.js · React · TypeScript · Tailwind · Firebase · Turso · Django

BLOCKCHAIN

Solidity · Ethers.js · Sepolia / Polygon

HARDWARE

Arduino · Raspberry Pi · biometric & stage systems

AI / ML

Hugging Face Transformers · scikit-learn · FastAPI

OPERATIONS

Hackathon organizing · community leadership · live event production

CREDENTIALS

166 on file, including the Google Cybersecurity Certificate, AWS Cloud Essentials, the McKinsey.org Forward Program, and Cambridge Linguaskill (C1). Nine fest and hackathon wins.
